Amandeep Group of Hospitals is the name among these types of Healthcare destinations which are pleased to provide the best medical treatment with the state of the art technology for the patients across the World. The strength of our Hospital lies in its highly qualified and experienced consultants, well trained nurses and welfare staff who are dedicatedly available 24X7 for the patients to provide timely and quality services.

Advanced Medical Services

Amandeep Hospital is committed to bringing innovative services and treatments to the community we serve. Hospital has acquired Navio robot-assisted surgery platform of Smith & Nephew Company. The Navio system offer game changing improvements in precision and accuracy without sacrificing efficiency. It allows surgeons the control to create a patient-specific plan in the OR and the confidence to execute with robotic precision. For the total knee, it provides surgeons the ability to do more than they have ever been able to do with standard instruments, resulting in improved functional outcomes for the patient. The system is designed to enable new, minimally invasive options for complex surgical procedures.

For the patient, Navio robot-assisted procedure can offer all the benefits of a minimally invasive procedure, including less pain, less blood loss and less need for blood transfusions. Patients have a shorter hospital stay, a quicker recovery and faster return to normal activities.
